

## A-COLLECTION 461R

---

**A-COLLECTION 461R:** Big chair. Oak wood shell.

**A-COLLECTION** design is born by the relation between two elements. On the one hand, the structural metallic frame made of a minimal squared profile with an orthogonal geometry which ensures the piece's stability. On the other hand, the organic geometry of the wooden chassis provides comfort and ergonomomy to the piece. Maybe, sitting down touching wood brings good luck.
