

ATOMO - 3 LEGS LOW TABLE

The Atomo project stems from the need to create a table capable of fitting into any environment and becoming its focal point. Lightweight and sturdy, the aluminium structure consists of a die-cast ground base onto which the legs supporting the top are attached. Every shape detail, such as the refined connection between the base and the tubular elements, responds to an aesthetic research that appropriates the most advanced production technology to outline a balanced and contemporary product in style. The wide range of colours and many finishes make it possible to meet the requirements of any space, be it a refined interior or an elegant outdoor space.

About the brand

S•CAB STUDIO is a place for open dialogue and exchange between the company and architects or interior decorators to communicate their world, their energy and passion. Both for indoor and outdoor environments.

A dedicated, special area to broaden the knowledge of a brand that has been synonymous with quality, innovation, and research for over 60 years, in addition to style and comfort.

Thus begins, today, a new journey that will thrive over time also thanks to the projects that you will want to share with us.

BRAND

Scab Design

A great capacity of creation and attention to detail inherited from a long tradition make SCAB Design a symbol of **Italian production**. Extraordinary objects, which take shape from the principles of beauty and functionality. Infinite research for the perfection of matter, which has resulted in exclusive recognition by Bayer by granting us a licence to use the Makrolon®, brand name from now on Covestro made with Makrolon. Quality and style for home design and for the indoor and outdoor contract sector. A unique touch, to transform the ideal into the material.
