

Avenue Bar Table

The Avenue self-stabilising table base balances classic, architectural line work with a contemporary pragmatism.

Exhibiting a sensory weightlessness, the high quality, die-cast aluminium base sees the Avenue as a perfect accompaniment for any setting. With a special alodine coating offering great corrosion resistance and a high-quality powder coat, Avenue is suitable for both indoor and outdoor applications.

Norock's award-winning bases use a simple mechanical system with four pivoting legs that are interconnected in such a way that they must reach an average weight loading on all four feet. When a table is placed on an uneven surface the feet will move until all four feet reach a state of equilibrium or more simply, a state of stability.

Finish: Aluminium - alodine protection powder coat

Metallic silver, sandstone black - non standard colours with upcharge
