

Avenue Table

The Norock self-stabilising table base balances classic, architectural line work with a contemporary pragmatism. Exhibiting a sensory weightlessness, the high quality, die-cast aluminium base sees the Avenue as a perfect accompaniment for any setting.

With a special anodine coating offering great corrosion resistance and a high-quality powder coat, Avenue is suitable for both indoor and outdoor applications.

Self-stabilising table base - Norock's award-winning bases use a simple mechanical system with four pivoting legs that are interconnected in such a way that they must reach an average weight loading on all four feet. When a table is placed on an uneven surface the feet will move until all four feet reach a state of equilibrium or more simply, a state of stability.

Aluminium Powder coat - Metallic Silver, Sandstone Black, Rust, Antique Bronze, White

Maximum recommended table top - 860mm
