

# BARDOT MET TU

---

The BARDOT MET TU version stands out for its elegance and brightness, which amplifies its stylistic code with new structures, new pastel shades and vibrant colors, and refined and contemporary finishes. The structure is lightened with clean legs thanks to the use of the metal rod. A pleasantly soft and graceful design, that of the new Bardot Collection, with a 1950s flavor, made up of full volumes, rounded lines, rounded corners and in which you can feel a singular overall harmony. With a wide range of coatings, fire-retardant fabrics, wools, velvets, leather or eco-leather, which make Bardot suitable for both domestic environments - kitchen, dining room, study - and larger contract contexts.

**DESCRIPTION:**

Painted metal structure with tubular leg in painted metal or in polished chrome, polished black chrome, polished brass, upholstered shell.
