

BARDOT MET

Always in line with the 1950s, here is the new version of Bardot with structure and legs in lacquered metal in different colors. The overall vision created by the harmony of the rounded shapes, the full volumes and the soft but minimal design is recreated in a more rock, metallic version, thanks to the structure that lightens the seat. A wide range of colors for the upholstery, upholstered in velvet, or leather or eco-leather, makes it suitable for both the home, kitchen, dining room, study, and contract environments. A transversal proposal to create welcoming domestic settings or furnish contract spaces.

DESCRIPTION:

Painted metal structure with conical leg, padded shell
