

#### BLACKBUTT - VENEERED TIMBER TOP

Our timber table tops are expertly manufactured in-house to your specifications.

We offer customisation of sizing, edge profiles and staining.

Veneered timber, pressed atop an MDF or plywood substrate.  
Available in several thickness options.

#### Colours

- Pale brown, some variations display slight pinkish tinge
- Paler zones common

#### Grain detail

- Texture medium and even
- Grains mostly linear
- Gum veining common

Hospitality Furniture Concepts proudly uses sustainably and responsibly sourced timber species in our manufacturing.

#### TIMBER STAINS

Choose a stain that suits your venue. Timber is a natural material, so grain and colour will vary between tops. If you need a closer match, request a physical sample or book a showroom visit.

#### TIMBER TABLE TOPS — KEY DETAILS

##### Made for Hospitality

Built for cafés, restaurants, clubs, pubs and workplace dining areas.

- Commercial-grade finishing options
- High-traffic durability
- Suitable for repeat cleaning

##### Sizes & Shapes

Choose standard sizes or specify custom dimensions.

- Round, square, rectangle
- Custom lengths & widths
- Cut-outs available (on request)

### Edges & Finishes

Select the look and feel that fits your project.

- Edge profiles: square, pencil-round, shark nose
- Clear coat or stain
- Sheen levels available

**Quick note:** Timber will expand and contract with seasonal humidity. This is normal for solid timber products and is factored into how tops are manufactured and fixed to bases.

### TECHNICAL SPECIFICATIONS

Construction  
Solid timber or timber veneer (by range)

Thickness Options  
Multiple thicknesses available (project-dependent)

Standard Sizes  
Common hospitality sizes available

Custom Sizes  
Made to order for fit-outs

Use  
Indoor commercial & residential (unless specified)

Lead Time  
Varies by size, finish and workload

### [Care & Maintenance](#)

Keep your timber top looking its best with simple care.

- Wipe spills promptly with a damp cloth
- Avoid harsh chemicals, abrasive pads and bleach
- Use coasters and placemats in high-use areas
- Keep away from direct heat sources where possible

### [Solid Timber vs Veneer — What's the Difference?](#)

**Solid timber** can be refinished over time and often shows deeper grain character.

**Timber veneer** offers a consistent look and can be a smart option for large quantities and tight timelines.

- Solid timber: can be sanded and refinished (limits apply)
- Veneer: stable, consistent appearance
- Both: available with commercial-grade finishes

### [Commercial Performance](#)

- Suitable for hospitality dining environments
- Commercial topcoats available for repeat cleaning
- Edge detailing helps reduce impact damage
- Base selection matters for stability on larger sizes

### [Sustainability](#)

We can supply timber options aligned with recognised forestry certification schemes where required for your project.

#### EDGE PROFILE OPTIONS

Edge details change the look and help with day-to-day wear. Ask for a recommendation based on your venue type and table size.

Square

Clean lines, modern look.

Pencil-round

Soft touch, good all-rounder.

Shark nose

Premium detail, refined profile.

## Need help choosing the right timber top?

Send us your size, shape, stain preference and base choice. We'll confirm suitability for your venue and cleaning routine.

### TIMBER TABLE TOP FAQs

Can I order custom sizes?

Yes. Most timber tops can be made to suit your layout. Share your required dimensions and base choice so we can confirm stability and support.

Will timber change over time?

Timber is a natural product. Colour variation, grain character and seasonal movement are normal.

Are timber tops suitable for hospitality venues?

Yes. With the right finish and care, timber tops perform well in cafés and restaurants. We can recommend a finish based on your cleaning routine and expected traffic.

Can you match an existing stain?

In many cases, yes. Provide a reference or sample and we'll advise options.

Our timber table tops are expertly manufactured in-house to your specifications.

We offer customisation of sizing, edge profiles and staining.

Veneered timber, pressed atop an MDF or plywood substrate.

Available in several thickness options.

### Colours

- Pale brown, some variations display slight pinkish tinge
- Paler zones common

### Grain detail

- Texture medium and even
- Grains mostly linear
- Gum veining common
