

Yves Booth

The Yves' low profile appearance makes it effective in adding subtlety to a space whilst introducing fine details and colour pallets.

The low-positioned backrest resembles a floating capsule reminiscent of its sister Rose Booth, offering a comfortable lumbar support and simplistic yet modern design. The upholstered seat sits flush with the backrest, perched atop a rounded steel tube frame, whose design allows for butting up of stand-alone units.

How it works

Create a truly unique interior for your space through our custom booth and banquette manufacturing process, where we will assist you in finding the perfect seating solution. Each design carries specific unit lengths, which can be lengthened and customised to suit any application.

To get started, we'll need to know:

- Your selected **booth style**;
- The intended seating capacity/**configuration** of the space;
- Your personal touches, selected from available **upholstery** and **framing finishes** (see below).
