

## BREZZA

In the Brezza armchair by Alessandro Stabile, the frame and cushions connect in a new way, combining solidity, resistance, and an innate elegance in a project born with outdoor comfort in mind. The upholstered parts fit into the frame and are fixed very easily by interlocking with one another. The generous padding leaves the round-section metal legs visible, which give strength and recognisability to the armchair. In Brezza, the eco-friendly sensitivity lies in the choice of materials: fabrics in recycled yarn, no use of glues, stackable frames for minimum size for transport with consequent reduction of CO<sub>2</sub>.
