

Catania C100-DW

The Catania outdoor dining chair reflects Zaneti's design approach — clean geometry, balanced proportions and honest materials. It brings structure and clarity to outdoor dining spaces without visual weight.

The silhouette is defined by a refined tubular frame and restrained detailing, creating a chair that feels considered from every angle. Its form is simple, yet deliberate — suited to contemporary hospitality environments that value both function and aesthetic integrity.

Designed for outdoor use, Catania performs in exposed settings while maintaining a composed architectural presence.

It works across terraces, courtyards, rooftop venues and beer gardens where durability must align with design.

Stackable and space-efficient, it supports flexible layouts and evolving floor plans without compromising the visual language of the space.

Catania is not just seating — it is a structured element within the outdoor setting, contributing to rhythm, order and atmosphere.
