

## Check-In Desk

---

Our modular check-in desk allows for the integration of conveyor belts and automated bag drop-off systems. Optional printer extension shelves and drop-down doors for CPU or general storage are also available.

Check-in desks are offered through Arconas' partnership with USM Airportsystems. USM Airportsystems develops flexible and cost-effective furnishings for all passenger processes based on a simple tube and panel solution.

### About USM

The USM system comprises of a chrome-plated brass ball joint, chromed steel tubes that connect to the ball forming a table framework, and powder coated metal panels mounted between the tubes.

### Highly Modular

The basic construction allows for infinite design possibilities. Accessories and options such as castors, privacy panels, and sliding shelves are also available to fit the specific needs of each airport.

### Conveniently Integrate Technology

Custom cut-outs can be created to accommodate any necessary check-in desk technology such as weight indicator screens and conveyor belt controls.

### Notable Features

- Steel panels with a polished chrome frame
- Low maintenance
- Dismantle, reconfigure and add new technology at any time

### Approvals & Certifications

- No fire load confirmed by Building Material Test Certificate B2
- LEED
- Greenguard
- Cradle to Cradle

### Construction

- Panels: Powder coated steel
- Frame: Chrome
