

Chord Middle Desk

COMMERCIAL WORKSTATION DESK

Chord Middle Desk is a refined commercial workstation desk designed for contemporary office environments, co-working spaces, breakout areas and meeting zones. Its clean, architectural form and functional layout support focused work and collaboration in modern interiors.

The desk features a spacious work surface with integrated cable management and a durable finish suited to daily use. Its modular design allows it to pair with other Chord systems, creating continuous workspace runs or individual stations tailored to project needs.

DESIGNED FOR MODERN WORKSPACES

- Spacious ergonomic work surface for laptops, monitors and peripherals
- Integrated cable routing to keep desks tidy and organised
- Modular system compatible with other Chord products
- Robust frame engineered for commercial environments
- Range of finishes to align with interior design palettes

FUNCTIONAL AESTHETICS

Chord Middle Desk balances practical use with a minimalist aesthetic. The exposed geometry of the frame and refined material choices make it suitable for offices, coworking hubs, receptions and executive work zones. Its proportions support both solitary tasks and dynamic team work.

This desk is ideal for corporate offices, shared workspaces, design studios and commercial interiors where durability, design clarity and workspace performance matter.
