

cuba 620

Cuba is a family of seats in steel and polypropylene made using the injected air-moulding technology, born for the public market. Simple and sober lines lend Cuba a universal character, suitable for any context, indoor and outdoor. Steel twists and turns as a frame around the seat, with a non-usual technique of metal folding.

SPECIFICATIONS

Stacking	Yes
Leadtime	12 weeks +
Material	Plastic
Arms	No
Linking	Yes
Price	200 - 500
