

FINN ALL WOOD

Profiles with deliberately generous sections create a pure and minimalist architecture that acts as the supporting structure for a soft, welcoming, and enveloping seat. From this contrast comes project Finn. A fusion of Nordic elements, filtered through a typically Italian sweetness and softness, a search for the perfect synthesis between tension and balance. Materials, colours, finishes, and refined details enhance the personality and character of this collection. Available in different combinations of materials, the chair and armchair versions make up a complete and coherent overall picture, which supports the most varied living solutions for private environments and for all situations related to the multifaceted contract world.
