

#### GLOW

Soft curves coupled with industrial materials create a modern centrepiece for outdoor entertaining.

- **Fuel:** Bioethanol

#### ADDITIONAL INFORMATION

**Price** [More than 500](#)

#### Streamlined Design

Powered by an AB8 ethanol burner, Glow delivers up to 12 hours of burning time. Perfect for illuminating an outdoor event or simply enriching a room's ambience.

#### Easily Portable

An absence of restrictive cables or gas connections means Glow is fully portable and can be installed virtually anywhere.

#### Architectural Feature

Like paving and other in-built outdoor elements, EcoSmart's Glow fire feature increases your enjoyment of the garden.

#### Dramatic Statement

Soft curves coupled with industrial materials create a modern centrepiece for outdoor entertaining.

### Eco-friendly Fire

Powered by e-NRG bioethanol, an environmentally friendly, readily available renewable energy.

### Simple Operation

An accompanying lid enables you to quickly extinguish the flame once put into position.
