

.H24 LITTER BIN

Design by DESIGN BASAGLIA + ROTA NODARI

The first litter bin made of aluminium staves decorated with heat transfer film for a natural ash wood grain effect. H24 – litter bin it is also available polyester powder coated in different colours. Hot-dip galvanised steel for outdoor use version. Ready-equipped for fastening to the ground with bolts.

Urban spaces, large public areas and shopping centres have become integral parts of our lives. Then, why not turning them into a domestic environment where social life can develop in full comfort? This concept has prompted Diemmebi to think of URBANTIME, a philosophy by which it realises and proposes its outdoor collections designed by Alberto Basaglia and Natalia Rota Nodari. Ventiquattrore.h24, made of steel and aluminium staves, reinterprets classical wooden and metal benches to suggest new types of use. The product ranges is conceived for outdoor areas however it do not disdain indoor spaces. All the products are designed and created to be completely recyclable and fully maintenance free.

BRAND

Urbantime

URBANTIME is a registered trademark of the DIEMMEBI company, which for more than 30 years has been devoted to bringing Italian style to the [furnishings of environments open to the public](#): schools, conference rooms, airports, hospitals. URBANTIME is a brand created to bring the same quality, passion and style to outdoor public spaces: parks, streets, bike paths, swimming pools, hotels. Over the years, this sensibility has grown, so much so that a showcase has become a true brand able to offer innovative and timely solutions to the growing demands of the market. The time we spend in urban public spaces and outdoors in general deserves the same attention and quality as the time we spend in our homes. For this reason Urbantime, literally urban time, was born. URBANTIME is the collection of furniture created to make these moments of each of our lives comfortable: when we wait for the train, when we enjoy an ice cream in the shade of a tree in a deserted square, when we allow ourselves a minute of recovery before the next training block along a bike path. Each product is the result of a chain of "minds" passionately dedicated to the same mission. The minds of those who thought them up join those who support or engineer them, those who produce them, those who tell them, those who promote and then install them, and finally those who use them.
