

## .H24 - Miami

---

Design by DESIGN BASAGLIA + ROTA NODARI

MIAMI is a sun shade with a sturdy, linear metal structure and a minimal design, supporting a large rectangular shade. The shade can be attached to all the tables in the Ventiquattrore.24 collection using the special brackets. The highly technological fabric is inflammable and can block 98% of harmful UV rays. The uprights are fixed on the short side of the table for a space-saving design. MIAMI is available in the classic Urbantime colours: white and micaceous anthracite.

Urban spaces, large public areas and shopping centres have become integral parts of our lives. Then, why not turning them into a domestic environment where social life can develop in full comfort?

This concept has prompted Diemmebi to think of URBANTIME, a philosophy by which it realises and proposes its outdoor collections designed by Alberto Basaglia and Natalia Rota Nodari.

Ventiquattrore.h24, made of steel and aluminium staves, reinterprets classical wooden and metal benches to suggest new types of use.

The product ranges is conceived for outdoor areas however it do not disdain indoor spaces.

All the products are designed and created to be completely recyclable and fully maintenance free.
