

Hay Table

The Hay Terrazzo Table Round is a distinct and versatile cafe table suitable for indoor and outdoor use for both public and private environments.

The table was developed and designed for cafés, restaurants, gardens, terraces or balconies where quality and durability is required. The tabletop is made of electro-galvanized steel with a powder coating for outdoor use. The Terrazzo base basically has the qualities of concrete, but unlike concrete, the material has an expressive surface that doesn't go unnoticed. Perhaps its best known as a surface material in subway platforms, the durability and frost resistance makes Terrazzo optimal in a heavily exposed environment.

Material: Steel

Suitable: Internal and External

Weight: 5.2 kg

Minimum order: 20 units

Warranty: 1 year

Dimensions

740 x 700 mm

Colours and Finishes

Acrylic base, custom top
