

Commercial Furniture Product Data Sheet

Hera Table

The Hera outdoor table with stylish lines creates a dining atmosphere perfect for any living area. Manufactured with solid wood slats on a die-cast aluminum frame, powder coated charcoal with exquisite craftsmanship.

Aluminium: A light and tough metal with an excellent strength to weight ratio and corrosion resistance - making it an ideal material for outdoor furniture. Our aluminum is enhanced by pre-treating the aluminum extrusions with a chrome conversion coating. The treated frame is subsequently coated with an electrostatically applied, powder coat finish. The resulting finish is knock and scratch resistant, impervious to moisture, highly resistant to corrosion and easy to clean.
