

Hopper picnic

The Hopper Picnic is a commercial outdoor picnic table designed for public spaces, beer gardens, courtyards and campus settings. It uses a bent-leg design that removes the awkward step-over found on classic picnic tables, so guests can sit down and stand up with ease. The attached benches keep the setting tidy and consistent across high-traffic areas. Choose an all-aluminium top for low upkeep, or a slatted pine timber top for a warmer look (timber requires ongoing maintenance). Legs come ready with ground-fixing flanges for secure installation in public environments.

KEY DIMENSIONS

- **Overall:** 1830mm L x 1630mm D (overall)
- **Table height:** 750mm
- **Bench height:** 450mm
