

HUG 2384

The new chair line is a return to the roots of S•CAB. This is because technopolymer was the chosen material to make it, but revised with a modern approach with the aim to be increasingly sustainable through concrete good practices in favour of the environment. HUG is therefore made with a certified regenerated Post-Consumer Recycled (PCR) material. Chair and armchair reach a higher ethical level and higher quality, giving life to a creatively green collection suitable for both indoor and outdoor environments. HUG features an extremely distinctive element: between the seat and the backrest the designers introduced a band-like element with a rounded and balanced shape, defined by a relieved striped pattern, that envelops just like a hug.

About the brand

S•CAB STUDIO is a place for open dialogue and exchange between the company and architects or interior decorators to communicate their world, their energy and passion. Both for indoor and outdoor environments.

A dedicated, special area to broaden the knowledge of a brand that has been synonymous with quality, innovation, and research for over 60 years, in addition to style and comfort.

Thus begins, today, a new journey that will thrive over time also thanks to the projects that you will want to share with us.

BRAND

Scab Design

A great capacity of creation and attention to detail inherited from a long tradition make SCAB Design a symbol of **Italian production**. Extraordinary objects, which take shape from the principles of beauty and functionality. Infinite research for the perfection of matter, which has resulted in exclusive recognition by Bayer by granting us a licence to use the Makrolon®, brand name from now on Covestro made with Makrolon. Quality and style for home design and for the indoor and outdoor contract sector. A unique touch, to transform the ideal into the material.
