

HUG 2384

The new chair line is a return to the roots of S•CAB. This is because technopolymer was the chosen material to make it, but revised with a modern approach with the aim to be increasingly sustainable through concrete good practices in favour of the environment. HUG is therefore made with a certified regenerated Post-Consumer Recycled (PCR) material. Chair and armchair reach a higher ethical level and higher quality, giving life to a creatively green collection suitable for both indoor and outdoor environments. HUG features an extremely distinctive element: between the seat and the backrest the designers introduced a band-like element with a rounded and balanced shape, defined by a relieved striped pattern, that envelops just like a hug.

Dimensions

SPECIFICATIONS

Arms	Yes
Leadtime	12 weeks +
Linking	No
Material	Plastic
Stacking	Yes
Price	200 - 500
