

JACKIE

Hybridisation is the concept on which the Jackie collection is based. Designed by Emilio Nanni, it is a chair in which the stable solid wood frame meets an inviting metal rod backrest covered in a woven rope design. This year Jackie is enhanced by new, extremely bold and distinctive colours, in a virtuous, harmonious dialogue between heterogeneous materials, ethnic touches and artisan processing techniques. All to create an innovative design for the perfect chair to make every contract environment stand out, with style.

DESCRIPTION:

Base in ash and back in metal woven with colored rope

Dimensions

BRAND

Traba

TrabA' provides a reinterpretation of contemporary design, creating a unique style that does not merely follow in the wake of the latest trends, but offers an authentic way of living each and every space. The [chairs and tables](#) of the TrabA' collection arise from a fundamental requisite: to create a calibrated hybridization of tradition, modernity and innovation. The project was designed by Emilio Nanni for TrabA'. The designer has conducted an in-depth research into the concepts chair and table, reflecting on their archetypes and developing a new form of essentiality for this collection. The result is a series of universal products suited to the domestic and contract furniture markets and particularly suitable for bright and welcoming environments, eager for objects that add a touch of style and prestige, as well as a contemporary look, to private and collective living spaces. The wide range of seats on offer convey a sense of modernity with a twist, combined with a tangible quality reflected in a meticulous attention to detail and finishes, for a range permitting great versatility of use.
