

JULIE IN Armchair

The warmth of reminiscing, of chats with friends; the freshness of tradition with a contemporary twist: Julie constitutes the expert revisitation of the archetypal chair, in which memory and modernity come together. The clean lines of the frame combined with the simplicity of the materials - and of the leather textures or in the stylish range of finishes- amplify the mood poised between memory and modernity. This year Julie is joined by the version with armrests, boosting its comfort level and enhancing a collection that encompasses the all-beechwood design with seat in visible plywood, or with padded seat upholstered in fabric, velvet, eco-leather and natural leather. Leather braids in the seat and backrest, or in rope only for the backrest, are the variants that stress the purity of the shapes and the empty and full effects, creating chairs and stools that are both versatile and welcoming.

DESCRIPTION:

Beech with wooden seat and back with colored rope weaving with armrests.
