

KENDO

The Kendo series of waste bins are manufactured in Germany by Auweko and exclusively distributed throughout the Americas by Arconas. Made from heavy gauge steel, these bins are protected from vandalism – simply wipe and it's gone. The surface sealing is best compared with glass that hardly stains. This line of waste bins will keep their high-quality appearance for years, reducing the cost of regular cleaning.

About Auweko

Auweko is a leading German manufacturer of waste and recycling containers. Since 1993 Auweko has developed, produced, and distributed a collection of systems for waste and reusable materials that unite form and function in every detail. These containers are made from high-quality, durable, stainless steel, are weather and vandalism resistant, and

easy to maintain.
