

LEAF LAMP TREE

Very close to how nature itself designs and based on simple principles, this sound-absorbing lamp has a harmonious, organic shape and is made from natural materials. The trunk and branches are made from Swedish birch. The foliage is made of thin, unbleached wool felt leaves. Leaf Lamp is shipped as flat packages (assembled upon request). It shares its inner energy from a warm-toned large LED (your choice – not included) filtering the foliage as a soft and natural light. Leaf Lamp Pendant is available in diameters of 80 or 130 cm.

Leaf Lamp has A-class sound-absorbing qualities – the foliage forms a soft labyrinth of 1,4 / 3,5 square meters of wool felt. It radically enhances speech perception in its proximity. Under the Leaf Lamp, a whisper is as good as a shout.

About

Green Furniture Concept designs sustainable seating and lighting for public interiors. Their focus is on creating welcoming spaces that are tailored to each client's needs and built to solve real-world challenges.

All products are made in Europe and feature in destinations such as Dublin Airport, Topanga Mall (Los Angeles), and Stockholm Central Station. In Australia, Hospitality Furniture Concepts are the exclusive distributor for Green Furniture Concept.

Creating Public Spaces People Want to Be In

Green Furniture Concept transforms public spaces into people-centred environments. Their designs bring warmth, ambience, and inclusivity to airports, stations, and other high-traffic interiors. Each piece encourages connection and calm — creating spaces people enjoy, share, and return to.

Designing spaces that drive profit.

Green Furniture Concept creates inviting environments near retail zones — spaces that encourage people to pause, take in their surroundings, and stay a little longer. These are places that spark curiosity, inspire connection, and naturally lead to spending.

At Edinburgh Airport, areas furnished with Green Furniture products saw a **14% increase in retail and F&B sales**, proving that good design doesn't just look right — it performs.

BRAND

Green Furniture Concept

Green Furniture Concept creates sustainable furniture and lighting for public interiors. Their work focuses on transforming high-traffic environments into welcoming, people-centred places. Each collection is carefully designed to enhance comfort, movement, and connection within airports, retail hubs, and civic spaces.

Manufactured in Europe, their products can be found in global landmarks such as Dublin Airport, Topanga Mall in Los Angeles, and Stockholm Central Station. Every piece combines timeless design with long-lasting materials and circular

production methods — proving that sustainability and design excellence can coexist seamlessly.

Green Furniture Concept's approach goes beyond individual products. It's about creating places where people want to linger — spaces that are both profitable and restorative. In fact, Edinburgh Airport recorded a 14% increase in retail and F&B sales in areas furnished with Green Furniture products.

Harrows are the exclusive partners for Green Furniture Concept in New Zealand, while Hospitality Furniture Concepts proudly represents the brand in Australia.
