INTEGRATED PLANTER MEETING TABLES FOR COMMERCIAL INTERIORS

LeafHub is part of our commercial furniture range at Hospitality Furniture Concepts, developed for workplaces, hospitality venues and public environments across Australia. Combining a durable metal structure, acoustic panel integration and an MFC tabletop in wood finishes, it delivers both function and visual warmth.

Integrated planter tables are ideal for open-plan offices and collaborative spaces where acoustic control and spatial definition are required. The combination of greenery and structured form supports biophilic design principles while maintaining long-term durability in high-traffic areas.

Specification Support for Projects

We work with architects, designers and project managers to assist with finish selection, layout planning and commercial specifications. LeafHub can be paired with our [commercial chairs](#), [commercial tables](#) and [modular lounge seating](#) to create cohesive interior schemes.
