

# Luma 3100

---

### MINIMAL FORM. MAXIMUM UTILITY.

The Luma 3100 is a premium dual waste unit designed for indoor food courts and commercial spaces. Combining practical functionality with a clean architectural presence, it provides an elegant waste solution for modern environments.

Constructed from durable steel and high-quality timber or laminate finishes, the Luma 3100 houses two standard wheelie bins behind soft-close, push-to-open doors. The design accommodates clear waste separation, while maintaining a discreet, cohesive aesthetic suited to retail and hospitality interiors.

---
