

MAKEUP PLASTIC CHAIR

Design by Alberto Basaglia Natalia Rota Nodari

The Makeup seat has a steel structure, chromed or painted, with seat and back in moulded recycled polypropylene, certified Remade in Italy. The aesthetics of the Makeup family are characterised by its curved and delicate lines that go in harmony with any community or contract environment. The collection offers a complete range of seats designed to meet every style and functional need. The innovative interlocking modular system, without the use of screws, can give rise to various compositions with a single frame: seats with or without armrests. With the same principle, a practical assembly system can be used to link several seats together, both with and without armrests. Also part of the family are: the task chair, the writing tablet chair, the stool and the bench. The versatility also extends to the choice of colour: six different colours are available. Of particular note is how effectively both the seat and the stool can be stacked.

ADDITIONAL INFORMATION

Price	200 – 500
Leadtime	12 weeks +
Linking	No
Stacking	No

BRAND

Urbantime

URBANTIME is a registered trademark of the DIEMMEBI company, which for more than 30 years has been devoted to bringing Italian style to the [furnishings of environments open to the public](#): schools, conference rooms, airports, hospitals. URBANTIME is a brand created to bring the same quality, passion and style to outdoor public spaces: parks, streets, bike paths, swimming pools, hotels. Over the years, this sensibility has grown, so much so that a showcase has become a true brand able to offer innovative and timely solutions to the growing demands of the market. The time we spend in urban public spaces and outdoors in general deserves the same attention and quality as the time we spend in our homes. For this reason Urbantime, literally urban time, was born. URBANTIME is the collection of furniture created to make these moments of each of our lives comfortable: when we wait for the train, when we enjoy an ice cream in the shade of a tree in a deserted square, when we allow ourselves a minute of recovery before the next training block along a bike path. Each product is the result of a chain of "minds" passionately dedicated to the same mission. The minds of those who thought them up join those who support or engineer them, those who produce them, those who tell them, those who promote and then install them, and finally those who use them.
