

MARLEN STOOL MET

Comfort, an ergonomic shape and a hardy structure are the characteristics of the Marlen design, the new Trabà chair designed by EP Studio. Hints of a Fifties vibe can be glimpsed in the curvature of the backrest - generously padded, like the seat - and in the dynamic, lightweight 4-leg metal rod frame, which becomes bulkier and more retro in the solid ash wooden version. Polished brass or copper add a vintage touch to the colour palette that can be mixed and matched to obtain the perfect chair for residential and tailor-made contract projects alike.

DESCRIPTION:

Structure in painted metal or in polished chrome, polished black chrome, polished brass, upholstered seat and back.

BRAND

Traba

TrabA' provides a reinterpretation of contemporary design, creating a unique style that does not merely follow in the wake of the latest trends, but offers an authentic way of living each and every space. The [chairs and tables](#) of the TrabA' collection arise from a fundamental requisite: to create a calibrated hybridization of tradition, modernity and innovation. The project was designed by emilio nanni for TrabA'. The designer has conducted an in-depth research into the concepts chair and table, reflecting on their archetypes and developing a new form of essentiality for this collection. The result is a series of universal products suited to the domestic and contract furniture markets and particularly suitable for bright and welcoming environments, eager for objects that add a touch of style and prestige, as well as a contemporary look, to private and collective living spaces. The wide range of seats on offer convey a sense of modernity with a twist, combined with a tangible quality reflected in a meticulous attention to detail and finishes, for a range permitting great versatility of
