

Natural Mentha

The visual reference to the world of nature and its harmonious lines and the ecological theme find synthesis in an easily recognisable shape: this is the signature of the Mentha chairs, the product of Archirivolto's first collaboration with S•CAB. Mentha is a fresh, practical, comfortable, and welcoming seat, just as its name suggests. The upholstered version is perfect for indoor environments; the minimalist technopolymer version is suitable for both indoor and outdoor spaces. Of no less importance is the material: certified recycled plastic, an advanced material increasingly adopted by the company.

SPECIFICATIONS

Arms	No
Leadtime	12 weeks +
Linking	No
Material	Upholstered
Stacking	No
Price	200 - 500
