

Pig Bench

The Pig Bench is inspired by traditional vaulting horses. A very flexible piece, it can be used as a dining bench or alternatively looks great placed at the end of a bed or in a hallway. With its firm top, it also works well as an occasional coffee table and of course, it's perfect for little people to clamber and roll about on! It has oiled oak legs with coarse suede leather upholstery which has been treated to help resist staining. This product is custom made, locally, in Melbourne.

SPECIFICATIONS
