## MODERN FIXED AUDITORIUM & THEATRE SEATING

Play is a contemporary fixed auditorium seat designed for lecture halls, performance venues and presentation spaces. Its slim metal frame creates a clean, architectural silhouette that feels sleek and modern in any interior.

The exposed steel structure gives Play a refined, lightweight appearance while maintaining the strength required for high-use environments. Upholstered seating adds comfort for extended sessions, balancing durability with a sharp visual profile.

Ideal for universities, corporate auditoriums and cultural venues seeking fixed seating with a modern metal aesthetic.
