

POLTRONA METAL

Specification

Model SJ9615 Auditorium chair

Back & seat sponge: High-density PU, molded by cold foaming, no distortion for a long time, back density is around

55 kg/m³. Seat density is around 60 kg/m³.

Back & seat cover: Premium deformation resistant high-density hard plywood, high-standard treatment processes.

Fabric: Stain and discoloration resistant premium fabric.

Armrest: size: 433*60*20mm, Imported timber externally applied with polyester coating. The armrest surface is designed with **curved lines**, which is more comfortable.

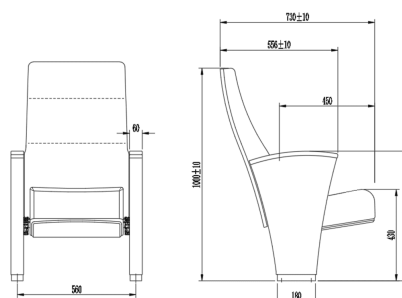

Tablet: Aluminum alloy material, size: 30cm*30cm

Cushion recovery: Spring plus damping mechanism, free from noise.

Leg: **Unique design**, one piece. Molded by die-casting with high-strength aluminum alloy, with painting or polishing treatment options.

Screw: Steel hexagon socket cap screws and expanding nut.
