

Scholar - fabric upholstery

Scholar is a commercial **auditorium seating system** engineered for lecture theatres, universities and training environments where durability, comfort and long-term performance are essential. Designed for fixed installation, Scholar provides consistent seating alignment and reliable operation in high-traffic public spaces. Built on a robust commercial-grade frame, Scholar features high-density moulded foam for extended seating comfort and a silent return mechanism that reduces noise between sessions. Its clean architectural profile allows seamless integration into tiered lecture theatre layouts and multi-purpose auditorium installations.

DESIGNED FOR EDUCATION & PUBLIC VENUES

Scholar is purpose-built for lecture theatre seating, seminar halls and auditorium spaces that require fixed seating with minimal maintenance. The system supports efficient aisle planning, clear sightlines and structured seating layouts across small and large venues.

KEY FEATURES

- Commercial auditorium seating system
- Fixed lecture theatre chair for tiered installations
- High-density moulded foam for long-session comfort
- Durable frame engineered for heavy-use environments
