

RADIUS

Radius is a series of recycle bins that stay in place and are easy to empty. The bins connect to each other as desired for different recycling configurations. The Radius Series of solid metal accessories are designed with Green Furniture Concept seating in mind, but also work very well as stand-alone products.

Radius is designed and manufactured by Green Furniture Concept, and distributed exclusively to airports throughout the Americas by Arconas.

About Auweko

Auweko is a leading German manufacturer of waste and recycling containers. Since 1993 Auweko has developed, produced, and distributed a collection of systems for waste and reusable materials that unite form and function in every detail. These containers are made from high-quality, durable, stainless steel, are weather and vandalism resistant, and easy to maintain.

BRAND

Green Furniture Concept

Green Furniture Concept creates sustainable furniture and lighting for public interiors. Their work focuses on transforming high-traffic environments into welcoming, people-centred places. Each collection is carefully designed to enhance comfort, movement, and connection within airports, retail hubs, and civic spaces.

Manufactured in Europe, their products can be found in global landmarks such as Dublin Airport, Topanga Mall in Los Angeles, and Stockholm Central Station. Every piece combines timeless design with long-lasting materials and circular production methods — proving that sustainability and design excellence can coexist seamlessly.

Green Furniture Concept's approach goes beyond individual products. It's about creating places where people want to linger — spaces that are both profitable and restorative. In fact, Edinburgh Airport recorded a 14% increase in retail and F&B sales in areas furnished with Green Furniture products.

Harrows are the exclusive partners for Green Furniture Concept in New Zealand, while Hospitality Furniture Concepts proudly represents the brand in Australia.
