

Commercial Furniture Product Data Sheet

Sauvage Chair SVG200

Sauvage captures raw purity with refined control. A sweeping plywood seat and backrest flow into solid ash legs, creating a sculptural timber chair that feels grounded and architectural. The distinctive oval leg profile defines its identity, softening the structure while reinforcing strength.

The design balances contrast. Strength meets lightness. Simplicity meets character. The plywood shell forms a continuous gesture, anchored by a solid ash frame. Clean proportions suit modern hospitality and residential interiors.

MATERIALITY

- Moulded plywood seat and back
- Solid ash legs with oval profile
- Natural timber finishes

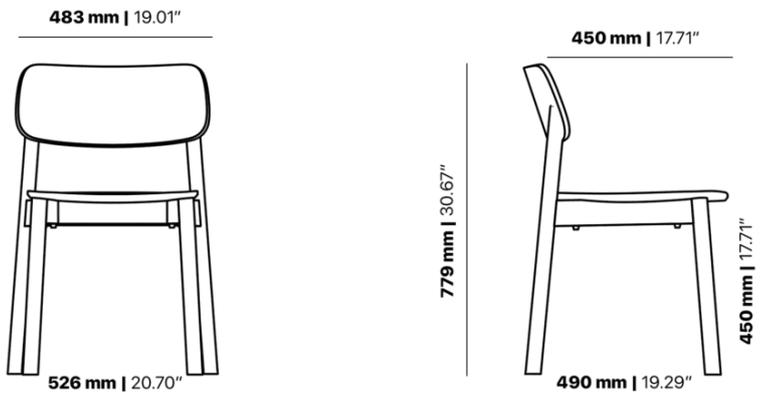

FUNCTION

Stackable by design, Sauvage supports flexible commercial layouts without losing visual presence.
