

Security Screening Table

Security screening tables feature steel panels, and a robust stainless steel top. Here passengers can un-pack and re-pack their bags as they move through security screening. These tables are offered through Arconas' partnership with USM Airportsystems. USM Airportsystems develops flexible and cost-effective furnishings for all passenger processes based on a simple tube and panel solution.

About USM

The USM system comprises of a chrome-plated brass ball joint, chromed steel tubes that connect to the ball forming a table framework, and powder coated metal panels mounted between the tubes.

Notable Features

- Steel panels with a polished chrome frame
- Low maintenance
- Dismantle, reconfigure and add new technology at any time

Approvals & Certifications

- No fire load confirmed by Building Material Test Certificate B1
- LEED
- Greenguard
- Cradle to Cradle

Construction

- Panels: Powder coated steel
- Frame: Chrome
