

SERIES DISPOSAL SYSTEM

The **SERIES Liquid Disposal System** delivers an intelligent, high-capacity solution for efficient liquid and waste management in high-traffic terminals.

It features an **advanced stainless steel strainer and 20-gallon antimicrobial tank**, designed to collect and store liquids safely. Separate chutes for **bottles and general waste** ensure streamlined sorting, while removable PE liners and a welded steel frame make cleaning and maintenance easy.

Each unit is built from **durable phenolic panels** with a **Silestone top**, providing long-term resistance to wear in public environments. The tank sits on a **dolly with lockable castors** for effortless drainage, and standard **bold graphic decals** improve user visibility and wayfinding.

Key Specifications:

- **Top:** Silestone – Urban Crush, Lime Delight, Concrete Pulse
- **Body:** Phenolic panels in Platinum Storm
- **Internal Frame:** Powder-coated tubular steel
- **Liquid Tank:** UV-stabilised antimicrobial PE, 20-gallon capacity, translucent and graduated
- **Strainer:** Stainless steel, removable for easy cleaning
- **Compliance:** Meets FDA standards

Built to withstand the demands of airports and transport hubs, the **SERIES** combines functionality, hygiene, and refined design in one complete waste management system.
