

#### SI-SI VIBES ARMCHAIR

Si-Si Vibes embodies the evolution of the Si-Si chair, distinguished by a brand-new pattern enriching both the seat and backrest.

Inspired by the fluid rhythms of sound waves and the harmonious movements of acoustic vibrations, the texture gives the chair a unique, distinctly contemporary character, subtly evoking the synaesthetic effects created by the interaction between visual and tactile perception. Made from certified regenerated plastic with a tubular metal frame, Si-Si Vibes is part of S•CAB's Go Green line.
