

SI-SI WOOD ARMCHAIR

Eclectic, chameleon-like, and multi-material chair, Si-Si is above all a smart chair that does not base its strength on the mere aesthetic aspect, because it is capable of interpreting the fragile balance between indoor and outdoor. A single body, fixed to the slender frame, can act either as a backrest or as a seat. Hence the name Si-Si, a sound repeated twice that pays homage to the duplicity of this element. One frame and four 'bodies', with heterogeneous textures and materials, make it suitable to very different environments.

About the brand

S•CAB STUDIO is a place for open dialogue and exchange between the company and architects or interior decorators to communicate their world, their energy and passion. Both for indoor and outdoor environments.

A dedicated, special area to broaden the knowledge of a brand that has been synonymous with quality, innovation, and research for over 60 years, in addition to style and comfort.

Thus begins, today, a new journey that will thrive over time also thanks to the projects that you will want to share with us.
