

#### SKIN STOOL

Bringing comfort and style to a snack counter in the kitchen or a public hospitality area, Skin Stool adapts in height and personality to all settings. The painted tubular metal shell can be teamed with full or "light" upholstery options, available in a wide range of fabrics, leathers, eco-leathers and velvets to create tone-on-tone or contrast combinations. As the name suggests, Skin Stool is a second skin for indoor, outdoor and hybrid spaces like verandas, terrace bars and bow windows.

#### DESCRIPTION:

Stool with metal frame and padded cushion. Also available in OUTDOOR version.

## BRAND

### Traba

TrabA' provides a reinterpretation of contemporary design, creating a unique style that does not merely follow in the wake of the latest trends, but offers an authentic way of living each and every space. The [chairs and tables](#) of the TrabA' collection arise from a fundamental requisite: to create a calibrated hybridization of tradition, modernity and innovation. The project was designed by emilio nanni for TrabA'. The designer has conducted an in-depth research into the concepts chair and table, reflecting on their archetypes and developing a new form of essentiality for this collection. The result is a series of universal products suited to the domestic and contract furniture markets and particularly suitable for bright and welcoming environments, eager for objects that add a touch of style and prestige, as well as a contemporary look, to private and collective living spaces. The wide range of seats on offer convey a sense of modernity with a twist, combined with a tangible quality reflected in a meticulous attention to detail and finishes, for a range permitting great versatility of use.
