## About Auweko

Since 1993, Auweko has developed and produced waste and reusable materials systems that unite form and function. Auweko bins are made from high-quality stainless steel, designed to be weather resistant, vandal resistant and easy to maintain in demanding public environments.

[Auweko Bins FAQ \(Public Space Use\)](#)

### Where are Auweko bins commonly used?

Auweko bins are used across public space environments such as airports, transport hubs, streetscapes, universities, shopping precincts and government facilities.

### Are Auweko bins suitable for recycling and waste separation?

Yes. Auweko offers modular waste and recycling stations that support clear separation and efficient servicing.

### What are Auweko bins made from?

Many Auweko systems use durable stainless steel designed for outdoor exposure, high traffic and easy cleaning.
