

# Tuk Bench (1x ex-showroom)

Tuk is a collection that was created primarily for public spaces. A key feature of the Tuk family is the hexagonal panels that make up the bucket structure. They can be seen in the forms of the backrest, armrests and seat. The geometric, slightly rounded shape evokes associations with the modernist style of the '60s and '70s. The Tuk Bench brings much more than just some additional usable space for the seat. This free room provokes an interaction with other people in public places.
