

Upper East Side Lounge Chair

Upper East Side, a collection which proudly bears the name of the Big Apple. Two souls, uptown and downtown, enclosed in a single design piece whose fully changeable covers reveal its innate versatility. The unusual and polyhedral ergonomics of the Upper East Side armchair encourages a personal use of the covers and the two colours, allowing different colour solutions from a single choice. The frame in wire drawn comes in many colour and coating finishes.

Minimum order: 2 units
