

VILLA 3A

VILLA 3A is the stool version of the Villa 1 chair. It retains the same materials and main technical features as the original, while the design has been adapted to suit the new height, balancing out its proportions.

The stool's backrest, sporting the same distinctive metal mesh, has been shortened compared to the chair versions to produce a more practical design and a lighter look. While this is more of an outdoor product, its innate elegance means it works just as perfectly indoors.

The Villa 3A tall stool is especially suited to outdoor bars, either used as seating along the bar top or paired with contemporary-looking tall tables, such as [Stato A/T-R](#).

Villa also comes in a chair, with or without arms.

BRAND

Colos

All projects by Colos emerge from the opportunity given to young designers from various nations to encounter the world of Italian industry. This encounter between the designers' esthetic and functional research and the company's great industrial experience leads to solid and elegant products which are developed within an optimized production process.

COLOS

The manufacturing is exclusively carried out in the company factories in Loria, Italy. In doing so, Colos can ensure the quality of its products and of the working conditions of its personnel. Ethical, durable and affordable: this is what a Colos product is to us.
