

#### **WORMY CHESTNUT - SOLID TIMBER TOP**

Our timber table tops are expertly manufactured in-house to your specifications.

We offer customisation of sizing, edge profiles and staining.

Highly variable timber, Australian Wormy Chestnut has a unique appearance - the result of the hardiness of Australian trees enduring wildfires, seasons of drought, flooding and insects. These features produce a similar appearance to recycled messmate. Known as Australian Chestnut when handpicked to be free of features.

#### **Colours**

- Overall, has mellow blonde colours blended with straw and light to dark browns

#### **Grain detail**

- Red and black gum veining pockets, markings of wildfires
- Pinholes and squiggly black features resulting from ambrosia beetles
- Non-uniform grain patterns and sap lines

Hospitality Furniture Concepts proudly uses sustainably and responsibly sourced timber species in our manufacturing.
