AIRPORT FURNITURE EXPERTS

300+ AIRPORTS WORLDWIDE

Raising the Value of Public Spaces

Arconas specializes in the development of seating, power, and waste solutions for high traffic waiting areas. Our team of experts provides holistic and ongoing support to ensure our products perform at their highest potential and raise the value of your public spaces. We are committed to creating positive experiences for people, motivating us to push our industry forward with design innovations that are human-focused and environmentally conscious.

From LAX to Montréal, to Lisbon and Guadalajara, our dedicated Airport Solutions Team works closely with terminal operators, airlines, architects and designers to help achieve each airport's unique objectives.

The Arconas Advantage

Dedicated Airport Solutions Team

Arconas' experience in design, planning, engineering, and manufacturing allow us to provide holistic expertise for your airport project. Our dedicated Airport Solutions sales and customer service team understands airport furniture from every angle, and as a result we've developed products and services that are connected and comprehensive.

Project Management

Arconas offers experienced project management, professional installation services, comprehensive warranties, on-time delivery and customized maintenance programs.

Design and Planning

We offer one-on-one consultation with an airport furniture specialist to help our customers create unique and innovative hold rooms, business, family, lounge and concessions areas. As experts, we have in-depth knowledge of how to optimize the crucial role that airport furniture plays in creating an exceptional passenger journey.

One-Stop-Shop

Arconas' suite of airport furniture offerings includes tandem and soft seating, benches, power, outdoor furniture, waste and recycling bins, and modular counter systems.

STRATEGIC PARTNERS

We are proud to work in partnership with top European brands Auweko, Green Furniture Concept, and USM Airportsystems.

U.S. GOVERNMENT PURCHASING

Arconas has supplied the US Federal Government for over 40 years. Contact us for a full listing of our products available on the General Services Administration contract or visit gsaadvantage.gov, keyword "arconas" for further details.

Flyaway

This is what public seating was meant to be. Flyaway is the best-selling Arconas seating system, with more than 120 leading airports already embracing its classic design and superior performance. Flyaway offers high backs, effective lumbar support and thick cushions, footrests and drink holders. It is a global standard in airport seating, but it is anything but standard.

Setz™

With durability top of mind, Setz™ is available with full, partial or no upholstery. It can be installed in single rows or in back-to-back configurations, with or without arms, and in a variety of colours. Setz™ is smartly conceived and exceptionally priced. Its all-steel construction means durability and easy maintenance. Setz™ units without upholstery can be used in outdoor settings.

SETZ BENCH

BENCHES

Indoor & Outdoor

You can accessorize your seating with simple, stylish benches designed to complement our product lines. Installing benches is a practical way to add extra seats to your facility in small spaces, or areas with short dwell times, even outside. Arconas benches are engineered for exceptional comfort and long-term performance.

Seating Optimization

Different spaces require different seating arrangements to optimize the airport experience. Clusters provide increased personal space for passengers while maximizing seat utilization for terminal operators. They may be equipped with convenient access to power and signage towers while safely concealing all electrical wiring. Installing diverse configurations is an effective way to maximize seating without making any compromises on comfort, style, and traffic flow.

We are committed to creating positive experiences for people

Connex

Connex is an extensive line of modular lounge seating with accompanying connecting tables. The seating components include: curved and straight single seats, 2 and 3 seat sofas, ottomans and benches. Units can be connected together to create endless rows of seating. The 90° connecting table can be used to create inviting corners and unique seating layouts. Connex's modular lounge seating and tables can be used anywhere people come together.

CONNEX POWER ARM

Lounge

Our innovative lounge seating offers a feast for the eye and maximum comfort for the body. These dynamic designs sparkle in today's modern airports including VIP lounges, play spaces and "recomposure zones". From classic elegance and beauty, to youthful colours and shapes, Arconas provides enough variety to satisfy, and embrace all of your visitors.

inPower™ Flex

Give your public seating a charge with inPower™ flex - a convenient way for people to recharge their electronics while sitting in comfort. Each module can be mounted under chairs and tables, and accomodates power cords and USB cables. inPower™ flex is the most utilized public charging unit in the airport industry.

- Durable and maintenance friendly
- USB over current protection
- Low power consumption
- Safety shutters
- Can daisy chain up to five units
- LED light indicates ready for service to users
- International models available
- Tested to UL/CSA/IEC 60950-1 by TUV SUD
- Electro-Magnetic Compatibility (EMC) Approval

INPOWER FLEX 3 WITH TWO AC RECEPTACLES AND USB TYPE-C PORTS WITH ADAPTIVE FAST CHARGING

INPOWER FLEX 2 WITH DUPLEX AC AND USB TYPE-A PORTS

inPower™ Bar & Stools

The inPower™ Bar is a “plug & play” modular counter system designed to provide a functional work and charging station for public spaces. The leg panels are equipped with inPower™ flex modules that provide AC and USB charging. ADA height units are available.

Universal Design

Arconas has the seating, counter, and power solutions to help your airport become barrier-free.

of each project

PARTNERS

Arconas understands the importance of being a single source for our client's airport furniture needs. That's why we've partnered with top European brands Auweko, Green Furniture Concept, and USM Airportsystems as the exclusive distributor of their products to airports throughout the Americas.

AUWEKO®

Auweko is a leading German manufacturer of waste and recycling containers. Since 1993 Auweko has developed, produced, and distributed a collection of systems for waste and reusable materials that unite form and function in every detail. These containers are made from high-quality, durable stainless steel, are weather and vandalism resistant, and easy to maintain.

MADE IN GERMANY

G

Green Furniture Concept

Green Furniture Concept is an award winning Swedish company specializing in seamless indoor wood seating and acoustic lighting options. The company strives to be a leader in sustainable furniture design and production and are committed to integrating environmental sustainability into their business processes.

USM

Modular Furniture

USM Airportsystems develops furnishings for all passenger processes in airports, such as modular counters and mobile kiosks, on the basis of the Swiss-made USM Haller modular furniture system. From check-in to boarding, the company offers a combination of timeless design, integrated technology, and endless flexibility.

Your Long-Term Satisfaction

We stock replacement parts for life, provide prompt follow-up and customer service, and offer comprehensive warranty programs.

HIGH SAFETY STANDARDS

Our products pass the requirements of the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association (ANSI/BIFMA). Products that meet ANSI/BIFMA standards have undergone extensive performance testing. Arconas seating also passes the most rigid fire standards in North America (CAL 117 and CAL 133, where necessary) and in Europe (British Standard-5852).

THE ENVIRONMENT

Arconas delivers the world's most environmentally-friendly airport seating. Our foam is CFC free and all of our seating passes ANSI/BIFMA's stringent emissions standards, contributing to better indoor air quality. By partnering with Cargill in 2009, Arconas replaced up to 20% of the petroleum content in its foam with BIOH (soybean-based polyol). Our seating systems can also help airports achieve commercial Interiors LEED credits.

Arconas is committed to the airport industry and is an active member of:

We are ACI World business partners and have a sales and distribution network across North America and around the world, offering our clients the benefits of local support and service. Arconas actively participates in airport industry conferences and exhibitions around the world every year. Please consult the Arconas website for a current tradeshow schedule.
