# The Arconas Story

Since its inception in 1972, Arconas has been recognized for its pioneering spirit and expertise in the furniture industry. The company’s name is derived from a greek translation meaning ‘innovative leader,’ and this idiom has continually guided the company in its design and manufacturing endeavors.

Throughout its years, Arconas has maintained a creative DNA, and works closely with industrial designers to craft highly designed yet durable furniture for high-traffic areas. Today the company is a leader in furniture for public spaces, having collaborated on projects world-wide with leading airports and transportation terminals, world-class museums and cultural centers, and high-profile government and judicial facilities.

Arconas works closely with clients to not only provide furniture, but invent and adapt products as consumer behavior changes. Our team of experts understand the crucial role furniture plays in how people interact with and enjoy public spaces. We work carefully with interior designers, architects, and facility managers to provide holistic, human-focused furniture solutions.

**Strategic Partners:**  
We are proud to work in partnership with top European brands Auweko, Green Furniture Concept, and USM Airportsystems.

**U.S. Government Purchasing:**  
Arconas has supplied the US Federal Government for over 40 years. Contact us for a full listing of our products available on the General Services Administration contract or visit [gsaadvantage.gov](https://gsaadvantage.gov), keyword "arconas" for further details.

# SECTORS

We create furniture for public spaces that is comprehensive, human-focused, and visually enhances the space it lives in.

**The Goal**

Public spaces must be arranged, designed, and equipped to support how you want the user to feel about and interact with their surroundings. Our extensive collection allows you to choose from a variety of configurations, accessories, colors, and visual cues for each unique space, which can ultimately create more positive experiences.

#### Holistic Expertise

The design of a government building provides a tangible expression of the institution's policies, values, and goals. Our furniture honors the distinction and character of these facilities while still emphasizing the importance of durability, efficiency, and safety.

# Power

In public spaces, spending time searching for an outlet creates unnecessary stress. Give people the convenience of power through our “plug and play” counter systems, wireless charging, and under-seat modules with AC receptacles, as well as USB and USB-C ports.

# Benches

Accessorize your seating with simple, stylish benches designed to complement our product lines. Installing benches is a practical way to add extra seats to your facility in small spaces, or areas with short dwell times.

ACCESSIBILITY SIGNS

Public spaces should be accessible and comfortable for everyone. At Arconas, we have the seating, counter, and power solutions to help each space become barrier-free.

Beautiful public spaces come together through the unity of variety. That's why we've partnered with top European brands Auweko, Green Furniture Concept, and USM Airportsystems for exclusive distribution of their products to spaces throughout the Americas.

Lester B. Pearson International Airport  
Toronto, ON, Canada

**Auweko** is a leading German manufacturer of waste and recycling containers. Since 1993 Auweko has developed, produced, and distributed a collection of systems for waste and reusable materials that unite form and function in every detail. These containers are made from high-quality, durable, stainless steel, are weather and vandalism resistant, and easy to maintain.

Arconas distributes Auweko products to any public space throughout the Americas.

Green Furniture Concept

**Nova C Double**

YYC Calgary International Airport  
Calgary, AB, Canada

**Green Furniture Concept** is an award winning Swedish company specializing in seamless wood seating and acoustic lighting options. The company strives to be a leader in sustainable furniture design and production and are committed to integrating environmental sustainability into their business processes.

Arconas distributes GFC products to airports throughout the Americas, and to anywhere in Ontario, Canada.

**USM Check-In Counter**

**USM Airportsystems** develops furnishings for all passenger processes in airports, such as modular counters, and mobile kiosks on the basis of the Swiss-made USM Haller modular furniture system. From check-in to boarding, the company offers a combination of timeless design, integrated technology, and endless flexibility.

Arconas distributes USM products to airports throughout the Americas.

# Your Long-Term Satisfaction

We stock replacement parts for life, provide prompt follow-up and customer service, and offer comprehensive warranty programs.

## High Safety Standards

Our products pass the requirements of the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association (ANSI/BIFMA). Products that meet ANSI/BIFMA standards have undergone extensive performance testing. Arconas seating also passes the most rigid fire standards in North America (CAL 117 and CAL 133, where necessary) and in Europe (British Standard-5852).

## The Environment

Our foam is CFC free and all of our seating passes ANSI/BIFMA's stringent emissions standards, contributing to better indoor air quality. By partnering with Cargill in 2009, Arconas replaced up to 20% of the petroleum content in its foam with BiOH (soybean-based polyol). Our seating systems can also help buildings achieve commercial Interiors LEED credits.
